### **DETAILED ACTION**

This is the first action relating to serial application number 10/616,171 filed 07/08/2003.

Claims 1-36 are allowed.

### ***Drawings***

1. The examiner has accepted the drawing filed with this application filed 07/08/2003.

### ***Reasons for allowance***

2. The following is an examiner's statement of reasons for allowance: the prior art fails to anticipate or render obvious the combination of an assisting apparatus for using power from a moving member to an assist the operation of a bicycle transmission as set forth in claims 1, 21, 27 and 36, and in particular, include a drive coupling mechanism that moves toward the moving member to couple the power transfer mechanism to the moving member to move the power transfer mechanism in one of the first direction and the second direction, and a position maintaining mechanism that prevents the power transfer mechanism from moving in the other one of the first direction and the second direction. Claims 21 and 27, further includes a moving member engaging member releasing mechanism that allows the first moving member engaging member to move from the first moving member disengaging position toward the first moving member engaging position, and a moving member engaging member reset mechanism that resets the first moving member engaging member into the first moving member disengaging position and in claim 27, a drive coupling mechanism that couples the power transfer mechanism to the moving member to move the power transfer

mechanism in one of the first direction and the second direction, wherein the drive coupling and the moving member a moving member engaging member coupled to the mounting member, wherein the moving member engaging member moves between a first moving member engaging position and a first moving member disengaging position, and a position maintaining member coupled to the mounting member, wherein the position maintaining member moves between a first position maintaining position and a first position releasing position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. All the prior art set forth in the "Notice of References Cited" disclose an assist mechanism for shifting a gear transmission of a bicycle. However, the prior art fail disclose a drive coupling that moves to couple a power transfer mechanism to a moving member in an up-shift or downshift position.
